

REMARKS

INTRODUCTION:

In accordance with the foregoing, the specification has been amended to improve form, claims 1, 3-6, 9, 10, 12, 14, 16, and 17 have been amended as discussed with the Examiner in the interview of May 15, 2003, and claims 27 and 28 have been added.

No new matter is being presented, and approval and entry of the foregoing amendments and new claim are respectfully requested.

Claims 1-28 are pending and under consideration. Reconsideration is requested.

PATENTABILITY OF NEW CLAIMS:

It is respectfully submitted that claims 27 and 28 are deemed patentable for reasons similar to why claims 1, 4, 9, 10, 14, and 16 are deemed patentable as discussed with the Examiner in the interview of May 15, 2003.

CONCLUSION:

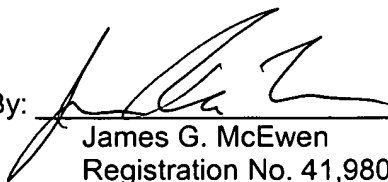

In accordance with the foregoing, it is respectfully submitted that all outstanding objections and rejections have been overcome and/or rendered moot. And further, it is respectfully submitted that all pending claims patentably distinguish over the prior art. Thus, there being no further outstanding objections or rejections, the application is submitted as being in condition for allowance which action is earnestly solicited.

If the Examiner has any remaining issues to be addressed, it is believed that prosecution can be expedited by the Examiner contacting the undersigned attorney for a telephone interview to discuss resolution of such issues.

If there are any additional fees associated with the filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,
